A TRIAL WILL CONVINCE YOU.

NOTHING that we could say would so thoroughly convince you of the value of Chamberlain's Tablets as a personal trial. We can tell you of thousands who have been permanently cured of chronic constipation, indigestion, biliousness, sick headache and disorders of the stomach and liver, but this will have little weight with you as compared to a personal trial. That always convinces.

OLIVE BRANCH SCHOOL. Everyone is cordially invited to come and enjoy themselves at our picnic, which will be Friday April the 23rd. Be sure and bring your lunch basket well filled. After the picnic we shall give an entertainment. Please come.

The perfect speller for the last week were: Blanche Bartlett, Margaret Cameron, Alta Willson, Vera Rort, Dorothy Precht, Hazel Garret, Orlo Gee, Paul Precht and Hugo Dishop.

Although Arbor Day was very unpleasant we did our best to improve the looks of our school yard by planting several rose bushes, lilac bushes, a snow ball bush and a few flower seeds. All we hope is that they will grow. Our school ground has plenty of trees therefore we did not plant any. We also gave a new ball bat to the one who made the best bird house with out the help of old persons. After the teacher had judged the bird houses the boys put them up. Paul Dennis won the ball bat.

Misses Alta and Mabel Willson spent Sunday afternoon with Miss Anna Galbraith.

SAN-JAK

is the greatest rectifier for the blood and skin yet known. Greasy skin with pimples, blotches, eruptions or scrofula easily cleared away. Its use leaves the blood and skin as pure as the lilies. SAN-JAK for the stomach, nerves and blood is the best the world ever saw. SAN-JAK prevents the excessive flow of poison fluid into the blood from the super renal glands near the kidneys, causing the arteries to harden in years past 50. This preventive keeps the arteries soft and flexible, giving flexibility to the muscles as in youth.

You can feel well and active at any age from 60 to 90 years. Man should die of old age, not from diseased tissue. Mothers and daughters can avoid many dangerous operations by the use of this wonderful medicine. The use of San-Jak for pain in the back and abdomen greatly lessens the danger of appendicitis. \$1.00 per bottle. Get SAN-JAK at

NEW HOMESTEAD LANDS. The United States Reclamation Service announces the opening and availability the latter part of April of a large number of desirable homesteads in the well-known Shoshone irrigation project near Yellowstone National Park, Wyoming. This opening will permit the fifth unit to be offered to the public in this district and will afford excellent opportunity for the serious homemaker to secure a desirable 40 or 80 acre tract under the homestead law in a district of proven agricultural worth.

According to an announcement issued by Albert V. Leonard, Settlement Agent of the U. S. Reclamation Service in the Federal Building, the Government during the past six months has been swamped with appeals for suitable agricultural homesteads and the opening of the Shoshone lands will in a measure appear the demand for irrigable tracts in this section.

"There is no question but that the economic business and economic conditions have been largely responsible for the increasing demand for and widespread interest in the 'back to the land' movement," states Mr. Leonard. "The Government is desirous of encouraging this laudable movement in every proper way and seeks to make readily available information concerning the opportunities which exist for the homemaker."

It is my desire that the Shoshone opening will attract an industrious class of people who will maintain the high standard of progressive farming which is rapidly transforming the Shoshone project into an agricultural community of accomplishment. With an excellent climate, fertile soil, ample water supply, and a splendid settlement with schools, churches, and other community interests, this project should appeal strongly to prospective settlers and I shall be very glad to supply such people with all necessary data."

TEMPERANCE LEGISLATION. The situation as to temperance legislation in the senate stated in figures is this: There are 20 Republican and 13 Democratic members of our Representatives, three from Cincinnati and one from Zanesville are wet. Thirteen Democrats plus four wet Republicans make 17 which is a majority of 33. These figures have been the McDermott liquor license decentralizing bill in the senate committee on temperance for two months.

The first vote to test the temperance strength came in the vote last Thursday on the Volstead bill to restrict wet shipments into dry territory in which the Republicans already mentioned and Wise of Massillon voted against it and one Democrat, Horn of Orrville, voted for it.
